

# Product Reference Guide

## Fortis

Enterprise document management software product suite that operates over a LAN, WAN, intranet, the Internet, or an extranet, with no limit on concurrent users; works with Microsoft SQL Server and Oracle

## Fortis SE

Document management software for up to 20 concurrent users; uses Microsoft SQL Server 2008 Express as its database back end

## Fortis Options

### Workflow

#### Fortis Workflow

Complete solution with a Web-based interface. An underlying workflow engine automates collaboration on complex tasks by routing documents and managing information within a business process.

**Fortis Workflow** also has the ability to purge documents to enforce retention schedules.

#### Fortis Approvel

Web-based workflow solution which automates approval processes.

#### Fortis SignIt

Physically merges a user's electronic signature with a **Fortis** document

### Integration

#### Fortis EnableIt

Integrates **Fortis** with any third-party application

#### Fortis Imagelt

Seamlessly links documents in **Fortis** with line-of-business applications

#### Fortis Data Entry Assistant

Index and update **Fortis** records using data stored in an ODBC-compliant database

#### Fortis Update Assistant

Update **Fortis** records and documents as a batch, by using data stored in an ASCII file

### Collaboration

#### Fortis CDExpress

Provides the ability to create and distribute CDs or DVDs containing **Fortis** documents and a view station

#### Fortis FaxIt

Dynamically reads unstructured data from fax images, applies business rules and routes documents appropriately

#### Fortis DocPack

Exports data and documents to a portable media; enables **Fortis** or non-**Fortis** users to gain access to these documents stored on any type of media in PDF format

### Disaster Recovery

#### Fortis Disaster Recovery

Creates a real-time data protection solution that prevents data loss or system downtime

### Web Access

#### Fortis Web

Allows users to easily access and work with the documents stored in **Fortis** via the Web

#### Fortis Portal

Is a self-service Web portal available via a standard browser

### Advanced Capture

#### Fortis FormIt

Provides Web-based form creation and processing through a single Web interface

#### Fortis Connector for eCopy ShareScan OP

Bridges gap between paper and digital workflows with touch of a button; users of multifunctional devices can capture documents with eCopy's ShareScan and send to **Fortis**

#### Fortis for Kofax Capture

Combines capturing ability of Kofax Capture with EDM capabilities of **Fortis**

#### Fortis Planet

Capture output from Objectif Lune's PlanetPress Watch

### Development

#### Fortis Test Bench

**Fortis** Test Bench lets customers set up a parallel **Fortis** system to test upgrades, integrations, roll-out processes, etc.

### Complementary Products

#### PlanetPress

Utilize data streams from your line-of-business applications to create variable forms printing and to trigger workflows
